Present Appointment

As a specialist trauma surgeon with interest in the surgery of lower limb degenerative disease, I accept instructions on all types of personal injury cases. I am happy to accept electronic instructions and I am happy to discuss cases with solicitors prior to being instructed. I will be happy to carry out domiciliary visit for selected cases.

I am able to provide comprehensive opinion on complex personal injury cases. I utilize my wide ranging experience in managing trauma cases and also rely on the available body of literature in dealing with such cases. I specialise in dealing with personal injury cases resulting from high velocity road traffic accidents. I deal all types of injuries resulting from such accidents such as whiplash injuries, head injury and multiple injuries of the limbs. I also deal with the sequel of such devastating injuries and routinely examines and provides opinion on such cases.
